

# A Spicy FOOD AND WINE EXPERIENCE

Spice of Life's food and wine matching dinners will dispel any doubts that sophisticated flavours are not restricted to cities. Set on Tamborine Mountain, the café takes full advantage of its proximity to some of Queensland's most exciting boutique wineries.

Each month an exclusive five course wine matching dinner takes award winning drops and complements them with unique dishes from around the world.

Each meal has a different menu of sublime flavours such as honey and figs with gorgonzola and prosciutto teamed with the Witches Falls Winery Granite Belt Chardonnay.

Heike Edrich, who established the café with fellow food lover and traveller Alex Baan, said each four-hour feast was created by a talented team.

"Each month our food and wine consultant, Jeff Channer, works with one of our three fantastic chefs to create food that complements the wines. The dinners showcase the best wines of the

region and show diners how to enjoy food and wine as a complete package," she said.

*A little café set in the heart of Beaudesert Shire's wine region is the perfect place to match food flavours of the world with award winning wines.*

The Spice of Life team thrive on helping people enjoy food from throughout Europe and Asia, and have created a café with efficient service, a warm atmosphere

and fantastic food.

If you can't make it to one of the special dinners, Spice of Life is open for breakfast, lunch and dinner and there's more than enough variety to stay for all three.

All meals are cooked on the premises with the choice of organic, vegetarian and gluten free products and meals. Dishes range from the subtle Chicken and Camembert Pie to the more potent tastes of Beef Vindaloo. There's also a selection of delicious sides like the Mediterranean Roast Vegetable Salad. For a healthy take-away option, most dishes are available as take home meals hot, cold, or frozen.

For dessert there is a selection of biscuits and cakes, and you can quench your thirst with a variety of hot and cold drinks including delicious smoothies, great for a breakfast on the go.

Spice of Life also stocks a range of gourmet deli style items, from chocolate coated coffee beans, to locally made dukka.
